READ CAREFULLY BEFORE ORDERING

The bulbs listed are true to name, young, healthy and sure to bloom. State inspected. Treated with 5% DDT dust. While we make no guarantee, we do want satisfied customers and will make every effort to correct errors or misunderstanding. If not satisfied, return your order intact, within ten days for a refund. All prices PREPAID anywhere in the U. S. A. Orders filled and shipped as weather permits, in order of rotation, unless later shipment is requested. All stock offered and orders accepted subject to prior sale. Right reserved to limit number of bulbs per customer of scarce items.

TERMS: Cash with order (Money Orders and Checks accepted). No Mail Orders for less than \$1.00 and no single item for less than 10c.

SUBSTITUTIONS: Available stocks of some varieties are small, so if you object to our sending something of equal or exceeding value, if sold out of an item, please state so and we will refund. Please suggest a few varieties for us to select your extras and substitutes from.

EXTRAS: On orders of \$1.00 or over we always add extra bulbs of the newer varieties for trial. The larger the order the greater the value of the extras. Look for them. Note: If you would rather have overcount of the varieties ordered, please state so.

QUANTITY PRICES: 25 bulbs or more of one variety and size may be purchased at the 100 rate, which is 8 times the 10 rate. Remember Quantity Prices too are PREPAID. No wholesale list this year.

BULB SIZES: Commercial gladiolus bulb growers grow all their stocks from the tiny bulblets or cormels that cluster in the roots of the large bulbs. As most varieties increase in bulb size until the third year, bulbs of varying sizes of any variety may be had, priced according to the size as well as the value of the variety. The younger or smaller bulbs being much cheaper than the large older ones. The retail trade recognizes three standard sizes; Large, with a minimum diameter of 1 1/4 inches; Medium, with 3/4 inch minimum; Small, less than 3/4 inches. ALL PRICES ARE FOR LARGE BULBS except as noted. See GLADVIEW SPECIALS for bargains in Medium and Small sizes.

BULBLETS: We can furnish Bulblets of most varieties listed. Priced at a minimum of 10c per package, liberally filled according to the value of the variety. Larger amounts accordingly.

GLADS ARE EASY TO GROW. COMPLETE CULTURAL DIRECTIONS WITH EACH ORDER.

GLADVIEW SPECIALS

MEDIUM SIZED BULBS of all varieties priced at 3 for 25c may be purchased at 5c each, 25 of one variety for \$1.00, or 100 of one variety for \$3.75 Prepaid. If you want more kinds than are listed just state how many bulbs of a kind you desire and remit accordingly, as we have small stocks of about a 1000 named varieties to choose from. Note: Most glads produce excellent blossoms from medium sized bulbs.

SMALL SIZED BULBS of the varieties listed at 3 for 25c are priced at 3 for 10c, 25 of one kind for 75c, 50 of one kind for \$1.25, or 100 of one kind for \$2.00 Prepaid. These can also be supplied in many varieties not listed. With good care and early planting many varieties will produce fairly good bloom from small bulbs.

\$1 SPECIAL: Red, White, Blue and all colors, each bulb different, unlabeled, a veritable Rainbow of color. 25 Large Bulbs, Prepaid \$1.00

BLOOMING SIZE SPECIAL: Same as the dollar special, except smaller bulbs, 3/4 inch minimum, each bulb different, unlabeled. 60 Bulbs, Prepaid. \$1.00

MIXED SEEDLINGS: Bulbs from the breeding patch. Just those that were to good to pull up, in fact most are the equal or better than modern named varieties, but after the few very best had been taken out. A mixture of about 1000 bulbs selected from the thousands that bloomed last summer. Parentage was the finest but they are in one pile now, so if you get a "Super-Duper", we wont be able to tell you its pedigree. Mostly pastel colors and very unlikely that any two will be alike. While they last.

Large	2 For .30	10 for \$1.25	100 for \$10.00 Pre-
Medium	1 for .10	10 for .80	100 for 6.00 paid.

LARGE FLOWERED GLADS 300-400-500 Size Classes

For years we have endeavored to gather from all parts of the world, the top winning gladiolus in every size and color class and believe our list of winners to be the most complete of any grower. We have tried also to keep stocks of the 25 best introductions of each decade, thus many good ones of previous years are listed.

Prize rating is taken from a careful compilation of the winnings from the reports of about 75 leading Gladiolus Shows for the last two years, 1948-9 (1950 not all in at the time of compilation). Varieties won three or more 1st prizes are starred (*). Top winners in each size and color class are double starred (**). This is the best available BULB BUYER'S GUIDE to Quality.

The other heading titles should explain the information given about each variety. For a more complete explanation, pedigrees, progeny lists, etc., see our catalogs of previous years, available at 10c per copy to cover mailing costs. (A copy free with your order if you mention it).

These varieties naturally produce florets of $3\frac{1}{4}$ inches or less in diameter. Because of their popularity the demand for these little fellows is increasing faster than stocks can be built up. For this reason we have had to withdraw some varieties for a year or two.
